1. American Community Survey 2018-2022, unless noted otherwise

2. Median values for certain aggregate regions (such as MSAs) may be estimated as the weighted averages of the median values from the composing counties.

3. Disconnected Youth are 16-19 year olds who are (1) not in school, (2) not high school graduates, and (3) either unemployed or not in the labor force.

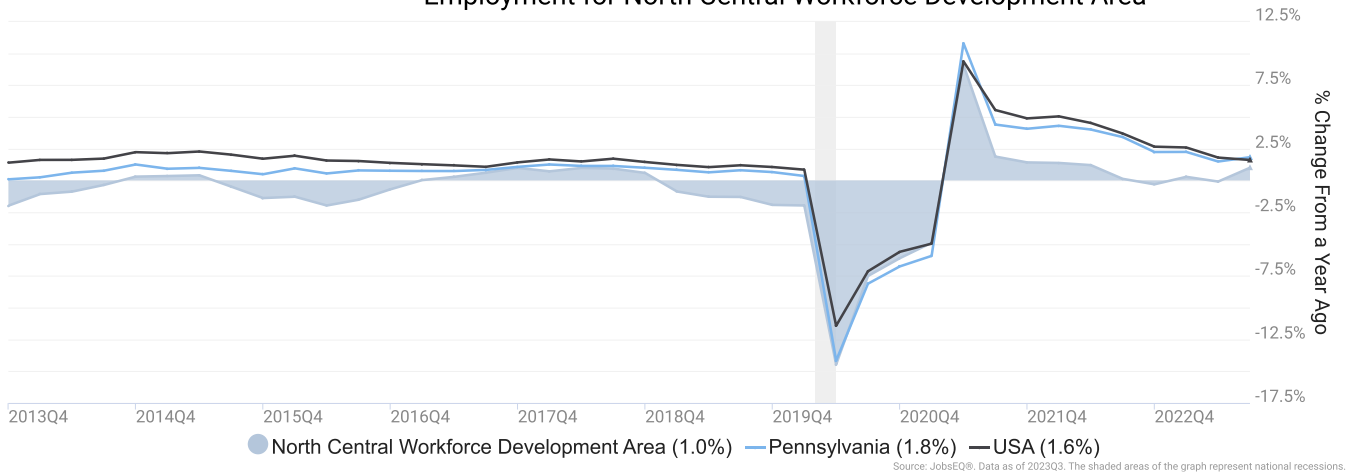

4. Census Population Estimate for 2022, annual average growth rate since 2012. Post-2019 data for Connecticut counties are imputed by Chmura.

5. The Census's method for calculating median house values changed with the 2022 data set, so pre-2022 values are not directly comparable with later data.

# Employment Trends

As of 2023Q3, total employment for the North Central Workforce Development Area was 84,158 (based on a four-quarter moving average). Over the year ending 2023Q3, employment increased 1.0% in the region.

Employment for North Central Workforce Development Area

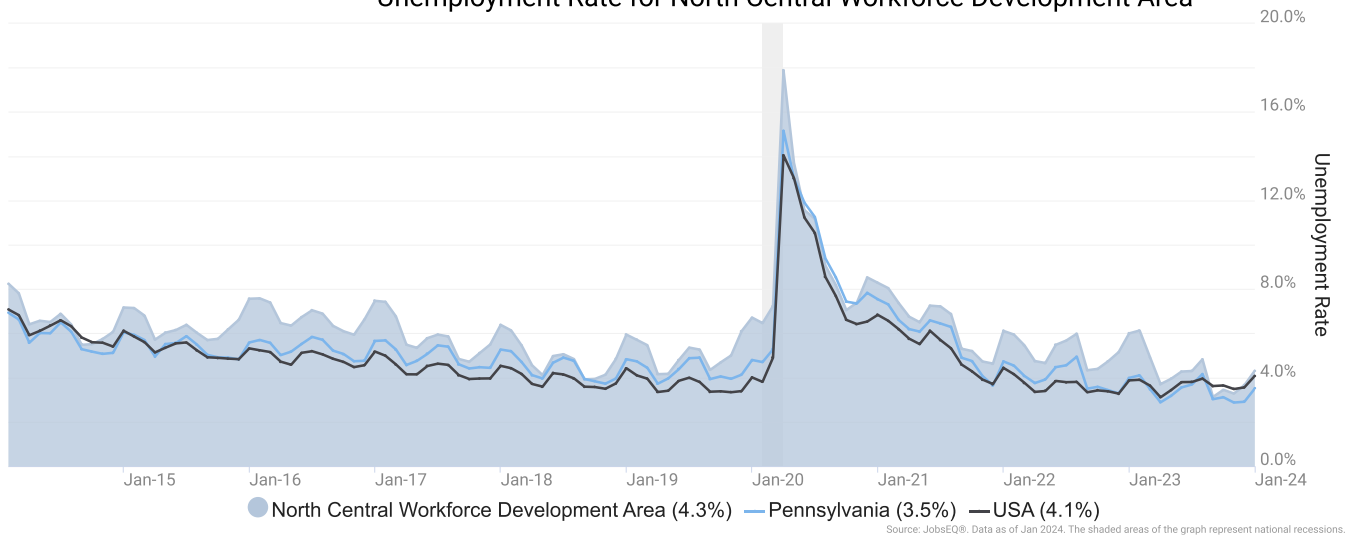

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2023Q4 with preliminary estimates updated to 2023Q3.

# Unemployment Rate

The unemployment rate for the North Central Workforce Development Area was 4.3% as of January 2024. The regional unemployment rate was higher than the national rate of 4.1%. One year earlier, in January 2023, the unemployment rate in the North Central Workforce Development Area was 6.0%.

Unemployment Rate for North Central Workforce Development Area

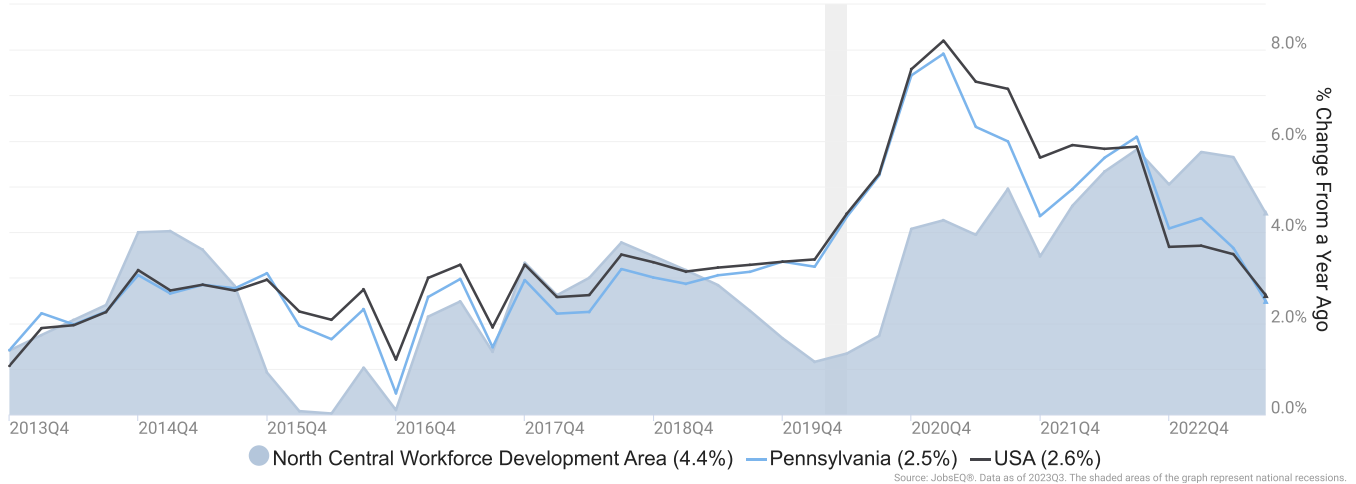

Unemployment rate data are from the Local Area Unemployment Statistics, provided by the Bureau of Labor Statistics and updated through January 2024.

# Wage Trends

The average worker in the North Central Workforce Development Area earned annual wages of \$48,177 as of 2023Q3. Average annual wages per worker increased 4.4% in the region over the preceding four quarters. For comparison purposes, annual average wages were \$70,183 in the nation as of 2023Q3.

Average Annual Wages for North Central Workforce Development Area

Annual average wages per worker data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2023Q2 with preliminary estimates updated to 2023Q3.

# Cost of Living Index

The Cost of Living Index estimates the relative price levels for consumer goods and services. When applied to wages and salaries, the result is a measure of relative purchasing power. The cost of living is 10.8% lower in North Central Workforce Development Area than the U.S. average.

## Cost of Living Information

	Annual Average Salary	Cost of Living Index (Base US)	US Purchasing Power
North Central Workforce Development Area	\$48,177	89.2	\$54,024
Pennsylvania	\$67,715	101.2	\$66,922
USA	\$70,183	100.0	\$70,183

# Industry Snapshot

The largest sector in the North Central Workforce Development Area is Manufacturing, employing 16,842 workers. The next-largest sectors in the region are Health Care and Social Assistance (13,580 workers) and Retail Trade (10,177). High location quotients (LQs) indicate sectors in which a region has high concentrations of employment compared to the national average. The sectors with the largest LQs in the region are Mining, Quarrying, and Oil and Gas Extraction (LQ = 4.02), Manufacturing (2.49), and Agriculture, Forestry, Fishing and Hunting (1.49).

Total Workers for North Central Workforce Development Area by Industry

Source: JobsEQ® Data as of 2023Q3

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2023Q2 with preliminary estimates updated to 2023Q3.

Sectors in the North Central Workforce Development Area with the highest average wages per worker are Mining, Quarrying, and Oil and Gas Extraction (\$83,336), Management of Companies and Enterprises (\$81,742), and Utilities (\$73,599). Regional sectors with the best job growth (or most moderate job losses) over the last 5 years are Management of Companies and Enterprises (+645 jobs), Agriculture, Forestry, Fishing and Hunting (+101), and Administrative and Support and Waste Management and Remediation Services (+88).

Over the next 1 year, employment in the North Central Workforce Development Area is projected to contract by 1,197 jobs. The fastest growing sector in the region is expected to be Management of Companies and Enterprises with a -0.5% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Arts, Entertainment, and Recreation (-4 jobs), Management of Companies and Enterprises (-7), and Real Estate and Rental and Leasing (-7).

Data as of 2023Q3

Note: Figures may not sum due to rounding.

1. All data based upon a four-quarter moving average

Exits and transfers are approximate estimates based upon occupation separation rates.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2023Q2 with preliminary estimates updated to 2023Q3. Forecast employment growth uses national projections adapted for regional growth patterns.

# Occupation Snapshot

The largest major occupation group in the North Central Workforce Development Area is Production Occupations, employing 10,033 workers. The next-largest occupation groups in the region are Office and Administrative Support Occupations (9,180 workers) and Transportation and Material Moving Occupations (9,175). High location quotients (LQs) indicate occupation groups in which a region has high concentrations of employment compared to the national average. The major groups with the largest LQs in the region are Production Occupations (LQ = 2.13), Community and Social Service Occupations (1.33), and Architecture and Engineering Occupations (1.32).

Occupation groups in the North Central Workforce Development Area with the highest average wages per worker are Management Occupations (\$103,000), Legal Occupations (\$88,700), and Healthcare Practitioners and Technical Occupations (\$83,700). The unemployment rate in the region varied among the major groups from 1.5% among Legal Occupations to 7.1% among Food Preparation and Serving Related Occupations.

Over the next 1 year, the fastest growing occupation group in the North Central Workforce Development Area is expected to be Healthcare Support Occupations with a -0.2% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Legal Occupations (-4 jobs) and Community and Social Service Occupations (-5). Over the same period, the highest separation demand (occupation demand due to retirements and workers moving from one occupation to another) is expected in Transportation and Material Moving Occupations (1,094 jobs) and Food Preparation and Serving Related Occupations (1,064).

Data as of 2023Q3 unless noted otherwise

Note: Figures may not sum due to rounding.

1. Data based on a four-quarter moving average unless noted otherwise.

2. Wage data represent the average for all Covered Employment

3. Data represent found online ads active within the last thirty days in the selected region. Due to alternative county-assignment algorithms, ad counts in this analytic may not match that shown in RTI (nor in the popup window ad list). Ad counts for ZCTA-based regions are estimates.

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2023Q2, imputed where necessary with preliminary estimates updated to 2023Q3. Wages by occupation are as of 2023 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

# Industry Clusters

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in the North Central Workforce Development Area with the highest relative concentration is Metal & Product Mfg. with a location quotient of 8.14. This cluster employs 4,976 workers in the region with an average wage of \$55,891. Employment in the Metal & Product Mfg. cluster is projected to contract in the region about 2.2% per year over the next ten years.

Industry Clusters for North Central Workforce Development Area as of 2023Q3

Source: JobsEQ® Data as of 2023Q3

Location quotient and average wage data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics, imputed where necessary, and updated through 2023Q2 with preliminary estimates updated to 2023Q3. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

# Education Levels

Expected growth rates for occupations vary by the education and training required. While all employment in the North Central Workforce Development Area is projected to contract 1.4% over the next ten years, occupations typically requiring a postgraduate degree are expected to contract 0.9% per year, those requiring a bachelor's degree are forecast to contract 1.0% per year, and occupations typically needing a 2-year degree or certificate are expected to contract 1.0% per year.

## Annual Average Projected Job Growth by Education Levels

Source: JobsEQ®  
Data as of 2023Q3

Employment by occupation data are estimates as of 2023Q3. Education levels of occupations are based on BLS assignments. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

# Gross Domestic Product

Gross Domestic Product (GDP) is the total value of goods and services produced by a region. In 2022, nominal GDP in the North Central Workforce Development Area expanded 9.3%. This follows growth of 15.0% in 2021. As of 2022, total GDP in the North Central Workforce Development Area was \$9,537,202,000.

Gross Domestic Product data are provided by the Bureau of Economic Analysis, imputed by Chmura where necessary, updated through 2022.

Of the sectors in the North Central Workforce Development Area, Manufacturing contributed the largest portion of GDP in 2022, \$2,501,822,000. The next-largest contributions came from Transportation and Warehousing (\$1,303,669,000); Health Care and Social Assistance (\$1,015,939,000); and Retail Trade (\$655,256,000).

## GDP (in \$ millions)

# Region Definition

**North Central Workforce Development Area is defined as the following counties:**

---

Cameron County, Pennsylvania

---

Clearfield County, Pennsylvania

---

Elk County, Pennsylvania

---

Jefferson County, Pennsylvania

---

Mckean County, Pennsylvania

---

Potter County, Pennsylvania

# FAQ

## What is a location quotient?

A location quotient (LQ) is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

## What is separation demand?

Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. The total projected demand for an occupation is the sum of the separation demand and the growth demand (which is the increase or decrease of jobs in an occupation expected due to expansion or contraction of the overall number of jobs in that occupation).

## What is a cluster?

A cluster is a geographic concentration of interrelated industries or occupations. If a regional cluster has a location quotient of 1.25 or greater, the region is considered to possess a competitive advantage in that cluster.

## What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.

## What is NAICS?

The North American Industry Classification System (NAICS) is used to classify business establishments according to the type of economic activity. The NAICS Code comprises six levels, from the “all industry” level to the 6-digit level. The first two digits define the top level category, known as the “sector,” which is the level examined in this report.

## What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. All workers are classified into one of over 804 occupations according to their occupational definition. To facilitate classification, occupations are combined to form 22 major groups, 95 minor groups, and 452 occupation groups. Each occupation group includes detailed occupations requiring similar job duties, skills, education, or experience.
